

Lesson Plan 5

Initials: XX Age: 10

Grade level: 6th Grade

Clinician: Audrey White

Date: 10/21/2020

Time: 4:00-5:00 pm

Supervisor: T. Gonzalez

1. XX will discriminate between long and short vowels when presented with monosyllabic words in a set of five flashcards with the printed words with an 80% degree of accuracy rating.

Prompt	Spontaneous (+/-)
cat	+
vet	+
make	+
mice	+
old	-
Degree of Accuracy Rating	80%

2. XX will articulate the initial /**th**/ phoneme when presented with monosyllabic and disyllabic words in a set of five flashcards with the printed words with an 80% degree of accuracy rating.

Prompt	Spontaneous (+/-)
thaw	-
thank	+
thread	+
theory	-
thought	+
Degree of Accuracy Rating	60%

3. XX will articulate the medial /**zh**/ phoneme when presented with disyllabic words in a set of five flashcards with the printed words with an 80% degree of accuracy rating.

Prompt	Spontaneous (+/-)
vision	+
measure	+
Asia	-

closure	-
treasure	+
Degree of Accuracy Rating	60%

Methodology:

- The clinician will present instructions in Total Communication as needed.
- The clinician will go through a set of five vocab cards for long versus short vowels, the initial /**th**/ phoneme, and the medial /**zh**/ phoneme.
- The clinician will ask the client to read the printed words on the flashcards.
- The clinician will place the known words for each phoneme on the right side of the table.
The unknown words for each phoneme will be placed on the left side of the table.
- The clinician will record the results.

Speech Reading

XX will auditorily and visually discriminate between five sets of three sentences by answering two comprehensive questions per set with an 80% degree of accuracy rating

Prompt	Questions	Spontaneous (+/-)
Jose loves to sleep . He sleeps nine hours a night.	What does Jose love?	+
However, last night he only slept for three hours .	How long did he sleep last night?	-
Jess loves cartoons . Her younger brothers do not.	What does Jess love?	+
Her favorite is Tom and Jerry .	What cartoon is her favorite?	+

Jonathan is the swim team captain. He is the fastest on the team.	Who is the swim team captain?	-
He got 1st place at his last meet.	What place did he get at the last meet?	+
French fries are Margo's favorite food. She eats them every night.	What is Margo's favorite food?	+
She always eats them with ketchup .	What does she always eat them with?	+
Jesus went on a class field trip yesterday . They had to bring a snack.	When did Jesus go on a class field trip?	-
He brought two bananas .	What did he bring for snack?	+
Degree of Accuracy Rating		70%

Methodology:

- The clinician will present instructions in Total Communication, as needed.
- The clinician will sit directly across from the client, ensuring that the client has full visibility of the clinician's face, and read off three sentences followed by two comprehension questions.
- The clinician will wait for the client's response and repeat the prompts when requested by the client.
- The clinician will repeat these steps for all five sets of sentences and questions.
- The clinician will record the results.

Auditory Listening

XX will auditorily discriminate between five sets of two sentences by answering two comprehensive questions per set with a 70% degree of accuracy rating.

Prompt	Questions	Spontaneous (+/-)
Alex has three dogs.	How many dogs does Alex have?	-
They are 2 years old .	How old are they?	+
Jordan's birthday is next week.	Whose birthday is next week?	+
He is having a pirate themed party.	What kind of party is he going to have?	+
Ryan has an English test tomorrow.	What test does Ryan have tomorrow?	-
He has to study all night.	What does he have to do all night?	+
Julie wants a bike for Christmas.	What does Julie want for Christmas?	+
She has wanted one for months .	How long has she wanted one?	-
Jacob accidentally kicked the soccer ball at Henry.	Who accidentally kicked the soccer ball at Henry?	-
Henry had to go to the hospital .	Where did Henry have to go?	+
Degree of Accuracy Rating		60%

Methodology:

- The clinician will present instructions in Total Communication as needed.
- The clinician will stand behind the client's better ear and orally read two sentences followed by two comprehension questions.
- The clinician will wait for the client's response and will repeat the prompts when requested by the client.
- The clinician will repeat these steps for all five sets of sentences and questions.
- The clinician will record the results

Language

1. XX will categorize grammatical structures, articles, nouns, and verbs, with an 80% degree of accuracy rating.

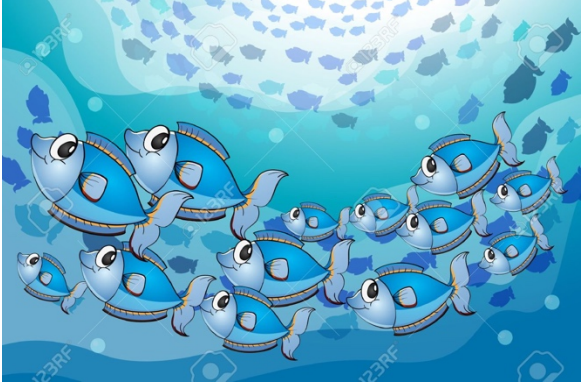

Prompt	Spontaneous (+/-)
A	+
The	+
A	+
The	+
A	+
baby	+
car	+
door	+
plane	+
cat	+
sleeps	-
honks	-
closes	+
flies	+
meows	+

Degree of Accuracy Rating	87%
----------------------------------	------------

Methodology:

- The clinician will provide the client with a total of 15 words on flashcards, 5 articles, 5 nouns, and 5 verbs. The clinician will also present the client with a “formula sheet” with three grammatical categories, article, noun, and verb, color-coded and written across the top.
- The clinician will play five separate videos for the client. According to the video, the client will place each word in the correct column creating five subject-verb agreement sentences.
 - Baby sleeping: https://www.youtube.com/watch?v=1lPdAExu_I0
 - Car honking: <https://www.youtube.com/watch?v=Zlaz96pUUf0> (at 10s)
 - Door closing: <https://www.pexels.com/video/person-opening-and-closing-the-door-2108274/> (at 3s)
 - Plane flying: https://www.youtube.com/watch?v=N_inkLZAfPA
 - Cat meowing: <https://www.youtube.com/watch?v=UwtTSqTbWzg&vl=en> (at 10s)
- The client will then write the sentences he created on a piece of lined paper.
- The clinician will review the client’s work once completed and explain, if necessary, any changes that need to be made.
- The clinician will record the results.

2. XX will write five subject-verb agreement sentences when presented with five sets of pictures with a 60% degree of accuracy rating.

Prompt	Spontaneous (+/-)
 shutterstock.com • 132471359	- <i>The dog eat.</i>
	+ <i>The fish play.</i>
	+ <i>The girl plays.</i>

	+ <i>The horse plays.</i>
	+ <i>The boy rides bikes.</i>
Degree of Accuracy Rating	80%

Methodology:

- The clinician will start by reviewing the parts of speech.
- The clinician will then explain the difference between the present and present progressive tenses reminding the client that the present tense does not include the “ing”.
- The clinician will then present an example picture and sentence. The clinician will ask probing questions about each word’s part of speech and then highlight them correspondingly. Red for verbs, yellow for the subject, and black for the articles.

- The clinician will then present the client with a worksheet containing five pictures and five sets of corresponding lines for the client to write.
- The clinician will give the client time to complete their sentences in present tense.
- The clinician will then ask the client to highlight their sentences correspondingly and make corrections as needed.
- Once reviewed, the client will rewrite the edited sentences.
- The clinician will record the results.

Reading Comprehension

1. XX will match three vocabulary words to their definitions when presented with a worksheet inclusive of a word bank with a 67% degree of accuracy rating.

Vocab word	Definition	Spontaneous (+/-)
Reflex	Movement made without thinking.	+
Invade	To enter without being asked.	+
Bother	To annoy.	+
Degree of Accuracy Rating		100%

Methodology:

- The clinician will first ask a few review questions about last week's vocabulary words (shelter, source, and resume) referring to the example pictures if needed.
- The clinician will then prompt the client to come up with his own definitions for this week's words and correct him if necessary.
- Next, the clinician will provide the client with a worksheet to complete involving three vocab words in a word bank and three definitions.
- The clinician will give the client time to complete the worksheet.

- The clinician will record the results.

2. XX will place three vocabulary words in context when presented with a worksheet containing a word bank and fill-in-the-blank sentences with a 67% degree of accuracy rating.

Vocab word	Sentence	Spontaneous (+/-)
reflexes	The football player has good _____.	+
invaded	The ants _____ the family's picnic.	-
bothers	Jesus' brother _____ him when he's trying to play video games.	-
Degree of Accuracy Rating		37%

Methodology:

- The clinician will provide the client with a worksheet to complete involving three vocab words in a word box and three sentences each with a missing word.
- The clinician will give the client time to place the correct vocab word in each sentence.
- The clinician will record the results.

3. XX will write the answer to three comprehensive questions when presented with a short story with a 67% degree of accuracy rating.

Prompt	Spontaneous (+/-)
What is your body trying to do when it sneezes?	+
How many hairs are located in your nose?	+
What tells your brain that something is invading your body?	-
Degree of Accuracy Rating	67%

Methodology:

- The clinician will provide the client with a worksheet including one short story and three comprehensive questions.
- The clinician will give the client time to read the story and answer the questions.
- The clinician will record the results.

4. XX will write the answer to two inference questions when presented with a short story with a 50% degree of accuracy rating.

Prompt	Spontaneous (+/-)
Are there certain things that make you sneeze?	+
Have you ever tried to stop yourself from sneezing? Did it work?	+
Degree of Accuracy Rating	100%

Methodology:

- The clinician will provide the client with a worksheet including two inference questions.
- The clinician will give the client time to answer the two questions which are based on the same story as the other three questions.
- The clinician will record the results.

Writing

XX will write two subject-verb agreement sentences when presented with a colorful picture with a 50% degree of accuracy rating.

Prompt	Spontaneous (+/-)
	+ <i>The boy kicks the ball. The boy tries to block the ball.</i>
Degree of Accuracy Rating	100%

Methodology:

- The clinician will start by reviewing the client's homework from last week and together they will make any necessary corrections.
- The clinician will then present the client with a new picture and a piece of lined paper.
- The clinician will give the client time to write their two sentences and then ask the client to read it aloud.
- The clinician will then analyze the client's sentences and make note of any mistakes.
- The clinician will explain to the client what needs to be corrected and together they will make the corrections.
- The clinician will then ask the client to rewrite the sentences with necessary corrections and read the corrected version aloud.
- The clinician will record the results.

Homework:

XX will conjugate the verb “play” in singular present, past, and future tense with an 80% degree of accuracy rating.

Prompt	Spontaneous (+/-)
I (present) I (past) I (future)	
You (present) You (past) You (future)	
He (present) He (past) He (future)	
She (present) She (past) She	
It (present) It (past) It (future)	
Degree of Accuracy Rating	

Methodology

- The client will conjugate the verb “swim” in 1st person, 2nd person, and 3rd person singular in present, past, and future tense.

- At the beginning of next session, the clinician will look over the client's work and together they will correct any mistakes.
