

Post Assessment

Initials: XX Age: 8 Grade level: 3rd Grade Clinician: Audrey White

Date: 04/19/2021 Time: 4:00-5:00 pm Supervisor: T. Gonzalez

Speech

1. XX will articulate the initial /v/ when presented with monosyllabic and disyllabic words in a set of ten flashcards with the printed words with a 70% degree of accuracy rating.

Prompt	Spontaneous (+/-)
van /văn/	
visit /viz-ut/	
victim /vik-təm/	
voice /vois/	
vet /vēt/	
vase /vās/	
vacuum /vak-yoom/	
visor /vī-zər/	
verse /vərs/	
vote /vōt/	
Degree of Accuracy Rating	

2. XX will articulate the initial /y/ when presented with monosyllabic and disyllabic words in a set of ten flashcards with the printed words with a 30% degree of accuracy rating.

Prompt	Spontaneous (+/-)
yard /yărd/	
year /yir/	

young /yʌŋg/	
yellow /yěĭ-ō/	
yes /yěs/	
you /yoo/	
yummy /yəmē/	
your /yōr/	
yawn /yôn/	
yell /yěĭ/	
Degree of Accuracy Rating	

Methodology:

- The clinician will present instructions in Total Communication as needed.
- The clinician will go through a set of ten index cards with vocab words for both the initial /v/ and the initial /y/.
- The clinician will ask the client to read the printed words on the flashcards.
- The clinician will place the known words for each phoneme on the right side of the table.
The unknown words for each phoneme will be placed on the left side of the table.
- The clinician will record the results.

Speech Reading

XX will auditorily and visually discriminate between 10 sets of two sentences by answering two comprehensive questions per set with a 60% degree of accuracy rating.

Prompt	Questions	Spontaneous (+/-)
Sarah went to the store .	Where did Sarah go?	
She bought bread .	What did she buy?	

I went to school .	Where did I go?	
School starts at 9 am .	What time does school start?	
Emma has a dog .	What does Emma have?	
Lauren has a cat .	What does Lauren have?	
Alexis likes soccer .	What does Alexis like?	
Ben likes football .	What does ben like?	
Abby went to the zoo .	Where did Abby go?	
She saw the tigers .	What did she see?	
Yesterday, I ate pizza .	What did I eat?	
My mom ate pasta .	What did my mom eat?	
Rylee went to the movies .	Where did Rylee go?	
She ate popcorn .	What did she eat?	
Thomas loves ice cream .	What does Thomas love?	
He always gets chocolate .	What flavor does he get?	
I see a pink flower.	What color is the flower?	
Julie has a yellow skirt.	What color is Julie's skirt?	
Mary likes to watch movies .	What does Mary like to do?	
Disney movies are her favorite.	What movies are her favorite?	
Degree of Accuracy Rating		

Methodology:

- The clinician will present instructions in Total Communication, as needed.
- The clinician will sit directly across from the client and read off two sentences followed by two comprehension questions.
- The clinician will repeat these steps for all ten different sets of sentences and questions.
- The clinician will record the results.

Auditory Listening

XX will auditorily discriminate between 10 sets of two sentences by answering two comprehensive questions per set with a 50% degree of accuracy rating.

Prompt	Questions	Spontaneous (+/-)
The pillow is pink .	What color is the pillow?	
The car is blue .	What color is the car?	
Jess loves to dance .	What does Jess love to do?	
Emma loves to swim .	What does Emma love to do?	
Yellow is Josh's favorite color.	What is Josh's favorite color?	
He has yellow tennis shoes .	What does he have?	
Audrey has three dogs.	How many dogs does Audrey have?	
She also has a cat .	What does she also have?	
Mrs. White teaches math .	What does Mrs. White teach?	
She has 5 students .	How many students does she have?	

Christian likes dogs .	What does Christian like?	
He has two dogs.	How many does he have?	
Audrey has a fish.	Who has a fish?	
Her fish is pink .	What color is her fish?	
Annie loves pizza .	What does Annie love?	
She ate three slices.	How many slices did she eat?	
Julie is a good runner.	Who is a good runner?	
She runs home .	Where does she run?	
Sarah went to the mall .	Where did Sarah go?	
She bought clothes .	What did she buy?	
Degree of Accuracy Rating		

Methodology:

- The clinician will present instructions in Total Communication as needed.
- The clinician will stand behind the client's better ear, the left, and orally read two sentences followed by two comprehension questions.
- The clinician will repeat these steps for all ten different sets of sentences and questions.
- The clinician will record the results.

Language

1. H.A. will categorize grammatical structures, articles, nouns, and verbs, with a 50% degree of accuracy rating.

Prompt	Spontaneous (+/-)
The	
A	

baby	
dog	
cries	
barks	
Degree of Accuracy Rating	

Methodology:

- The clinician will provide the client with a paper with article, noun, and verb labeled across the top.
- The clinician will also provide the client with six note cards containing two articles, two nouns, and two verbs.
- The client will place each note card under the correct part of speech.
- The clinician will record the results.

2. XX will articulate 10 words from the Dolch Word List at a second-grade level with an 80% degree of accuracy rating.

Prompt	Spontaneous (+/-)
best	
buy	
green	
around	
why	
sleep	
always	
cold	
many	
both	
Degree of Accuracy Rating	

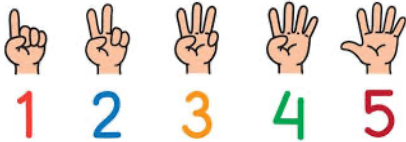

Methodology:

- The clinician will present instructions in Total Communication as needed.
- The clinician will go through a set of ten index cards with sight words from the Dolch Word List at the second-grade level.
- The clinician will ask the client to read the printed words on the flashcards.
- The clinician will place the known words on the right side of the table. The unknown words will be placed on the left side of the table.
- The clinician will record the results.

Reading Comprehension

1. XX will match ten vocabulary words to their pictures and definitions when presented with a worksheet inclusive of a word bank with a 40% degree of accuracy rating.

Vocab Word	Picture	Definition	Spontaneous (+/-)
pet	 shutterstock.com · 1219875625	An animal kept in the house.	
dream	 VectorStock® VectorStock.com/11142932	Pictures that a sleeping person sees.	

roar	 shutterstock.com · 1706942599	To make a deep, loud cry.	
trip		To travel from one place to another.	
quickly		In a short time.	
study		To try to learn something.	
extra		More.	
count	 shutterstock.com · 737593834	To add up.	

sip		To drink slowly.	
pour		To make a liquid flow.	
Degree of Accuracy Rating			

Methodology:

- The clinician will provide the client with a worksheet to complete involving ten vocab words in a word bank, ten pictures, and ten definitions. Once the pictures and words are correctly matched, the client will match the words with their definitions.
- The clinician will give the client time to complete the worksheet.
- The clinician will record the results.

2. XX will place ten vocabulary words in context when presented with a worksheet containing a word bank and fill-in-the-blank sentences with a 60% degree of accuracy rating.

Vocab word	Sentence	Spontaneous (+/-)
pet	Lucy has a _____ fish.	
dream	Adam and Lauren _____ about ice cream while they sleep.	

roar	Lions like to _____	
trip	They went on a beach _____ last Summer.	
quickly	He _____ ate the valentine treats.	
study	Ryan plans to _____ all night long before his big test tomorrow.	
extra	Haeven asked for _____ pizza.	
count	Mom asked me to _____ how many cookies we had left.	
sip	She took a _____ of her drink.	
pour	Can you _____ me a glass of milk please?	
Degree of Accuracy Rating		

Methodology:

- The clinician will provide the client with a worksheet to complete involving ten vocab words in a word box and ten sentences each with a missing word.
- The clinician will give the client time to place the correct vocab word in each sentence.
- The clinician will record the results.

3. XX will write the answer to five comprehensive questions when presented with a short story, *Superhero Joey*, at the second-grade level from SuperTeachers.com with an 80% degree of accuracy rating.

Prompt	Spontaneous (+/-)
What is Joey's costume?	

What is his sister's name?	
Where does Joey need to watch Mindy?	
What did Joey put around his sister's shoulders?	
Who won the costume contest?	
Degree of Accuracy Rating	

Methodology:

- The clinician will provide the client with a worksheet including one short story from Superteachers.com at the second-grade level and five comprehensive questions.
- The clinician will give the client time to read the story aloud and answer the questions.
- The clinician will point out any wrong answers, and together they will make the necessary corrections.
- The clinician will record the results.

Writing

H.A. will write five subject verb agreement sentences when presented with five different pictures with a 20% degree of accuracy rating.

Picture	Article	Noun	Verb	Spontaneous (+/-)
				

				
				
				
				
Degree of Accuracy Rating				

Methodology:

- The clinician will present instructions in Total Communication as needed.
- The clinician will present the client with a worksheet. The worksheet will have five pictures as well as a chart labeled article, noun, and verb for each individual picture.
- The client will complete the worksheet by writing five subject-verb agreement sentences in present tense.
- The clinician will record the results.

Post Assessment

Initials: XX Age: 10

Grade level: 6th Grade

Clinician: Audrey White

Date: 11/18/2020

Time: 4:00-5:00 pm

Supervisor: T. Gonzalez

Speech

1. XX will discriminate between long and short vowels when presented with monosyllabic words in a set of ten flashcards with the printed words with a 60% degree of accuracy rating.

Prompt	Spontaneous (+/-)
cake	+
hat	+
not	+
bite	+
pet	+
make	+
old	-
vet	+
space	+
bike	+
Degree of Accuracy Rating	90%

2. XX will articulate the initial /**th**/ phoneme when presented with monosyllabic and disyllabic words in a set of ten flashcards with the printed words with a 50% degree of accuracy rating.

Prompt	Spontaneous (+/-)
think	+
throw	+
thank	+
thought	+
three	+
thread	+
thaw	-
throat	+
thumbs up	+
thirsty	+
Degree of Accuracy Rating	90%

3. XX will articulate the medial /**zh**/ phoneme when presented with disyllabic words in a set of ten flashcards with the printed words with a 50% degree of accuracy rating.

Prompt	Spontaneous (+/-)
measure	+
seizure	-
treasure	+
Persia	+
vision	+
leisure	+

pleasure	+
Asia	+
version	-
closure	+
Degree of Accuracy Rating	80%

Methodology:

- The clinician will present instructions in Total Communication as needed.
- The clinician will go through a set of ten vocab cards for long versus short vowels, the initial /**th**/ phoneme, and the medial /**zh**/ phoneme.
- The clinician will ask the client to read the printed words on the flashcards.
- The clinician will place the known words for each phoneme on the right side of the table.
The unknown words for each phoneme will be placed on the left side of the table.
- The clinician will record the results.

Speech Reading

XX will auditorily and visually discriminate between ten sets of three sentences by answering two comprehensive questions per set with a 70% degree of accuracy rating

Prompt	Questions	Spontaneous (+/-)
Ashley loves to dance . She practices every day.	What does Ashley love?	+
She wants to be a professional dancer one day.	What does she want to be one day?	+

My brother is a nurse . He works with babies.	What is my brother?	+
He works the morning shift .	What shift does he work?	+
Bob is the baseball team captain. He is the strongest on the team.	Who is the baseball team captain?	+
The team got 2nd place at the last tournament.	What place did they get at the last tournament?	+
Pasta is Mary's favorite food. She eats it every night.	What is Mary's favorite food?	+
She always eats it with garlic bread .	What does she always eat it with?	+
Ryan went to dinner last night. He went with his two brothers .	Who did Ryan go to dinner with?	+
They all ordered steak .	What did they all order?	+
My dad drives to work in the morning. He leaves at 8am.	Where does my dad drive in the morning?	+
He is a firefighter .	What is he?	+
Mason has soccer practice tomorrow. He has to be there at 3pm.	What does Mason have tomorrow?	+
He rides his bike to practice.	How will he get there?	+

Josh likes playing outside. He climbed a tree yesterday.	What did Josh do yesterday?	+
Josh saw a bird in the tree.	What did he see in the tree?	+
I am going to dinner tonight. My sisters are going too.	Where am I going tonight?	+
I will eat tacos .	What will I eat?	+
I watched a movie last night. It was scary.	What did I do last night?	+
I ate popcorn during it.	What did I eat?	+
Degree of Accuracy Rating		100%

Methodology:

- The clinician will present instructions in Total Communication, as needed.
- The clinician will sit directly across from the client, ensuring that the client has full visibility of the clinician's face, and read off three sentences followed by two comprehension questions.
- The clinician will wait for the client's response and repeat the prompts when requested by the client.
- The clinician will repeat these steps for all ten sets of sentences and questions.
- The clinician will record the results.

Auditory Listening

XX will auditorily discriminate between ten sets of two sentences by answering two comprehensive questions per set with an 80% degree of accuracy rating.

Prompt	Questions	Spontaneous (+/-)
My brother reads at night.	Who reads at night?	+
My dad drinks coffee in the morning.	What does my dad do in the morning?	+
There was a spider on the wall.	What was on the wall?	+
My mom took it outside .	What did my mom do with it?	+
Ryan has a Science test tomorrow.	What test does Ryan have tomorrow?	+
He has to study all night.	What does he have to do all night?	+
We are celebrating my cousin's birthday today.	What are we celebrating today?	-
He wants a vanilla cake .	What does my cousin want?	+
Audrey loves strawberries .	What does Audrey love?	+
She's going to buy some tomorrow .	When is she going to buy some?	+
Hailey plants pink flowers .	What does Hailey plants?	-
Her mom plants blue flowers .	What does her mom plant?	-

Jesus ate sushi for dinner.	What did Jesus eat for dinner?	+
His brother ate pizza.	Who ate pizza?	+
I ride my bike by the river .	Where do I ride my bike?	-
My bike is purple .	What color is my bike?	+
Henry plays basketball .	What does Henry play?	+
Spencer plays football.	Who plays football?	+
Oscar loves to run .	What does Oscar love to do?	+
He runs every morning .	How often does he do it?	+
Degree of Accuracy Rating		80%

Methodology:

- The clinician will present instructions in Total Communication as needed.
- The clinician will stand behind the client's better ear and orally read two sentences followed by two comprehension questions.
- The clinician will wait for the client's response and will repeat the prompts when requested by the client.
- The clinician will repeat these steps for all ten sets of sentences and questions.
- The clinician will record the results

Language

1. XX will categorize grammatical structures, articles, nouns, and verbs, with an 80% degree of accuracy rating.

Prompt	Spontaneous (+/-)
A	+
The	+
A	+
The	+
A	+
dog	+
child	+
car	+
cat	+
plane	+
barks	+
runs	+
honks	+
meows	+
flies	+
Degree of Accuracy Rating	100%

Methodology:

- The clinician will provide the client with a total of 15 words on flashcards, 5 articles, 5 nouns, and 5 verbs. The clinician will also present the client with a “formula sheet” with three grammatical categories, article, noun, and verb, color-coded and written across the top.

- The clinician will play five separate videos for the client. According to the video, the client will place each word in the correct column creating five subject-verb agreement sentences.
 - Dog barking: https://www.youtube.com/watch?v=MBSKB66mH_0
 - Child running: <https://www.youtube.com/watch?v=EzC1PupilOc>
 - Car honking: <https://www.youtube.com/watch?v=Zlaz96pUUf0> (at 10s)
 - Cat meowing: <https://www.youtube.com/watch?v=UwtTSqTbWzg&vl=en> (at 10s)
 - Plane flying: https://www.youtube.com/watch?v=N_inkLZAfPA
- The client will then write the sentences he created on a piece of lined paper.
- The clinician will record the results.

2. XX will write ten subject-verb agreement sentences when presented with ten sets of pictures with a 60% degree of accuracy rating.

Prompt	Spontaneous (+/-)

They are funs.

	+ <i>A girl cooks.</i>
	+ <i>The boy sings.</i>
Degree of Accuracy Rating	60%

Methodology:

- The clinician will present the client with a worksheet containing ten pictures and ten sets of corresponding lines for the client to write.
- The clinician will give the client time to complete their sentences in present tense.
- The clinician will then ask the client to highlight their sentences correspondingly.
- The clinician will record the results.

Reading Comprehension

1. XX will match ten vocabulary words to their definitions when presented with a worksheet inclusive of a word bank with an 80% degree of accuracy rating.

Vocab Word	Definition	Spontaneous (+/-)
unique	Unlike anything else.	+
common	Found often.	+
flexible	Easy to bend without breaking.	+
shelter	A place giving temporary protection.	+
source	A place or thing from which something comes.	+
collect	To bring together.	+
resume	Begin something again after a pause.	+
invade	To enter without being asked.	+
reflex	Movement made without thinking.	+
bother	To annoy.	+
Degree of Accuracy Rating		100%

Methodology:

- The clinician will provide the client with a worksheet to complete involving ten vocab words in a word bank and ten definitions.
- The clinician will give the client time to complete the worksheet.
- The clinician will record the results.

2. XX will place ten vocabulary words in context when presented with a worksheet containing a word bank and fill-in-the-blank sentences with an 80% degree of accuracy rating.

Vocab word	Sentence	Spontaneous (+/-)
unique	7-foot-tall people are very _____	+
common	It is _____ to have a pet dog.	+
flexible	The gymnast was very _____	+
shelter	Audrey found _____ under a tree during the storm.	+
source	Movies and TV shows are both a good _____ of entertainment.	+
collect(s)	The teacher _____ the students' tests.	+
resume	Jesus' mom let him _____ his video games after he finished his homework.	+
invade	The ants _____ the family's picnic.	-
reflex(es)	The football player has good _____.	+
bother(s)	Jesus' brother _____ him when he's trying to play video games.	-
Degree of Accuracy Rating		80%

Methodology:

- The clinician will provide the client with a worksheet to complete involving ten vocab words in a word box and ten sentences each with a missing word.
- The clinician will give the client time to place the correct vocab word in each sentence.
- The clinician will record the results.

3. XX will write the answer to five comprehensive questions when presented with a short story with an 80% degree of accuracy rating.

Prompt	Spontaneous (+/-)
What color are stingrays?	-
How many fins do stingrays have?	+
What is one of the stingray's prey?	+
What is the stingray's flat body compared to?	+
How do stingrays defend themselves against sharks?	+
Degree of Accuracy Rating	80%

Methodology:

- The clinician will provide the client with a worksheet including one short story from Sauperteachers.com and five comprehensive questions.
- The clinician will give the client time to read the story and answer the questions.
- The clinician will record the results.

4. XX will write the answer to two inference questions when presented with a short story with a 50% degree of accuracy rating.

Prompt	Spontaneous (+/-)
Would you be scared if you saw a stingray?	-
Do you think it would hurt to get stung?	+
Degree of Accuracy Rating	50%

Methodology:

- The clinician will provide the client with a worksheet including two inference questions.
- The clinician will give the client time to answer the two questions which are based on the same story as the other three questions.
- The clinician will record the results.

Writing

XX will write five subject-verb agreement sentences when presented with a prompt with a 40% degree of accuracy rating.

Prompt	Spontaneous (+/-)
SpongeBob wins a dirt bike race.	<i>SpongeBob was Happy then He wins raes.</i> <i>SpongeBob want to go Home and look to raes.</i> <i>But He go to raes more.</i> <i>And SpongeBob side ok.</i> <i>And He win and He was Happy.</i>
Degree of Accuracy Rating	0%

Methodology:

- The clinician will present the client with a prompt and a piece of lined paper.

- The clinician will give the client time to write his five sentences and then ask the client to read it aloud.
- The clinician will record the results.
